

# AUTUMN SKY BUTTERFLIES

- 1** Additional materials needed: Markers and a small bowl of water.

- 2** Color the filter. The less white space, the better.

- 3** Use the dropper to drip water over filter.

- 4** Once dry, fold the filter accordion style. Fold, turn over, fold, etc...

- 5** Fold one pipe cleaner in half.

- 6** Slide filter through pipe cleaner. Loosely twist pipe cleaner around filter. Fan out wings.

- 7** Add beads. Twist pipe cleaner into antennae shape. Autumn Sky Butterfly complete!

**Bonus:** add the second pipe cleaner to the back of the butterfly. Gently twist the pipe cleaner around the crafter's wrist!
